  - Took initial concepts and managed project plans for one hotel booking system.

👉 Skills: HTML5 / CSS3 / JavaScript / React / Laravel / Jest

## EDUCATION

**Singapore Institute of Technology** - *B.Sc. Computer Science*

April 2010 - March 2014

## CAREER SUMMARY

I'm a freelance Front-end React Developer originally from Serbia, but working remotely in the United States.

I started my developer journey in 2010 when I learned the basics of programming and created my first web application from scratch.

After that I studied multiple courses about modern JavaScript (ES6+), HTML/CSS Flexbox, and CSS Grid on Udemy and YouTube.

In 2013, I joined an intensive full-time web development course in Singapore at Singapore Institute of Technology and completed 800 hours.

I participated in building multiple projects in teams using the latest technologies with primary focus on front-end development, however I'm familiar with Node.js, Express.js, MySQL and REST API.

- Front End Developer with over 7 years of experience in Laravel, React, Vue, Next.
- I have joined 3 enterprise companies and 2 startups during my career and built successful ecommerce websites, admin dashboards, and landing pages.
- Notable achievements include boosting the conversion rate of an existing website by 80% with improved code and design.

My primary goal is to provide complete satisfaction to my client's expectations with my experience and diligent work.

Thanks for reading my resume.
